

THE CARIBBEAN ACADEMY OF SCIENCES VOL. 3, 1992

Foreword

Caribbean Academy of Sciences
Opening Ceremony, September 3, 1993
Dover Convention Centre
Opening Ceremony, September 3, 1992
CARICOM Industrialisation, Trade and Economic
Liberalisation
Some examples of successful Industrialization
in Barbados — What was the anatomy of success?
Research in Health Sciences: The Caribbean
Issues
The Commissioning of the Eric Williams
Medical Sciences Complex
The establishment of a radiography training
programme in Trinidad and Tobago and its
anticipated impacts
The reliability of abnormal Cervical
Cytology.
Occupational and Environmental Safety and
Health in the Caribbean. The challenge
of the 90's.
Immunological Characterization and
phosphorylation of a novel cardiac calmodulin-
binding protein.
Cleft lip and the palate experience in
Trinidad and Tobago.
Cost Containment in Surgery
Cytochrome C Oxidase: A new conformational
model.
Clinical characteristics of infertile women
having hysterosalpingography at Mt. Hope
Women's Hospital.
Electrical response of single neurons in
cat and frog to monochromatic stimuli and
their correlation with human psychophysical
experiments.
Trans abdominal versus trans vaginal
ultrasound imaging of the pelvis
Facial deformities-assessment and treatment
planning with computers
Wilms' tumour in a horseshoe kidney
Electrophoretic characterization of yam
bean tuber proteins.
The role of intravenous contrast media
in the evaluation of intracranial pathology
Thyroid scintigraphy: Impact and relevance
in Trinidad and Tobago
The enhancement of veterinary practice
through computerisation
"Digital image processing — A valuable
research tool"
Modular pre-cast concrete box culvert
Industrialization and Economic Development
of: The Caribbean Region
